Every year the Nevada Water Resources Association, an organization of water professionals throughout the state and the West, provides scholarships to assist serious students with degree completion. Scholarships are awarded to students attending a Nevada university or community college. Qualified students must be pursuing a degree in the field of water resources. Preference is given to students who have not yet received extensive monetary assistance, yet demonstrate scholastic aptitudes and serious long-term interest in the water resources industry.

The 2025 application form must be received by November 22, 2024. Applications received after that date will not be considered. Students must submit the application form and a short (no more than one page) Curriculum Vitae that emphasizes activities not included in the application form. A one-paragraph description of their thesis topic, field of hydrologic interest or career goals in hydrology is required of all candidates. Applications must be received in electronic format or postal mail by November 22, 2024. Incomplete applications will be excluded. Please note: NWRA will not award the scholarships if none of the applicants meet the minimum requirements.

Upon receipt of scholarship funds, the recipient will read and provide their signature of an understanding that the awarded funds are to be used for educational purposes only. Educational purposes include payment for courses attended and books used for such courses.

Recipients of the \$1000 Graduate Scholarship, the \$1000 Undergraduate Scholarship, the \$500 Northern Nevada Scholarship, the \$500 Southern Nevada Scholarship and the \$500 Mine Water Management Scholarship will be announced during the 2025 NWRA Annual Conference Week. Winners will be contacted by phone prior to the conference. You are encouraged to apply for all that you are eligible for using the one universal form.
