

# Ron Peterson

**Mr. Ron Peterson** lives in South Jordan Utah with his wife Linda to whom he has been married for 49 years; together they have raised four successful children.

Mr. Peterson has worked for Baroid for 38 years, starting out in the oil industry and was part of the original team that started the Industrial Drilling Product line for Baroid. He is the Co- Editor for the National Ground Waters Glossary of Water Well Terminology and Glossary of Drillers Terminology which were later combined and used as a part of the basis for the NGWA Lexicon of Industry Terminology.

Mr. Peterson is currently a Senior Account Representative and has won a Halliburton MVP award. He is a board member of Mountain States Ground Water Association and the American Ground Water Trust. He was a co-editor of Chapter 8 describing the proper use of drilling fluids in the Johnson Well "Groundwater and Wells" third edition.

In December 2013, Mr. Peterson was presented with the Ross L. Oliver award by the NGWA for "Greatest Contribution to the Water Well Industry." He was also named the 2015 McElhiney Distinguished Lecturer by the NGWA in December 2014.
